Defending Freedoms

Personal Autonomy

Oregonians overwhelmingly believe that personal life and health care decisions should be made by each of us — not by politicians or the government.

In 2026, we led the passage of HB 4088, which protects health care providers and patients from federal and other out-of-state investigations or prosecutions of lawful and essential health care provided in Oregon — including abortion, reproductive, and gender-affirming health care.

Protecting Democracy

Dissent is Patriotic

We are protecting the rights of protestors and journalists to speak truth to power with legal cases like “Portland Chicken” v. Trump.

We are also working in coalitions like Protect Oregon to keep the military off our streets, stop the federal government’s abuses of power, and defend our democracy.

We are also opposing unchecked government surveillance, including through systems like Flock cameras.

Demanding Justice

Law Enforcement Accountability

No one should be above the law — including law enforcement officers and agents.

In 2026, we championed the passage of HB 4138A, which requires all law enforcement operating in Oregon — including ICE and Customs and Border Patrol — to unmask and visibly identify their agency. We also supported HB 4114, which allows everyday people to sue government agents for unlawful home entries.

Achieving Equity

Immigrant and Refugee Rights

Americans believe that all people should be treated with fairness, humanity, and dignity — including our immigrant and refugee neighbors.

In coalitions like Oregon for All and with partners like PIRC Oregon, we are defending our state’s decades-long sanctuary laws, supporting Oregon’s rapid response system against ICE, protecting international students, opposing new funding for ICE and Customs and Border Patrol, and stopping new detention centers.
